124 Oak Street, Austin, TX 78701
Phone: (512) 555-2398

Date: October 5, 2025
Prescription valid until: December 5, 2025

Patient: John Doe **Age:** 56 **Sex:** Male **Weight:** 82 kg

No	Medication	Dose & Instructions	Duration	Notes / Issues
1	Metformin 1000 mg tablet	1 tablet twice daily after meals	3 months	■ Correct dose, but validity ends before refill due — v
2	Lisinopril 40 mg tablet	1 tablet once daily	3 months	■■ High dose for first-time user — risk of hypotension
3	Ibuprofen 800 mg tablet	1 tablet three times daily for 30 days	30 days	■■ Too long for high-dose NSAID — potential kidney
4	Simvastatin 80 mg tablet	1 tablet at bedtime	3 months	■■ High dose — not recommended for new users (m
5	Amoxicillin 500 mg capsule	1 capsule twice daily for 10 days	10 days	■ Appropriate short-term antibiotic.

Advice:
- Follow up in 4 weeks for blood pressure and kidney function monitoring.
- Avoid NSAIDs unless absolutely needed.
- Reassess cholesterol therapy in 2 weeks — may switch to atorvastatin lower dose.
